

## Project Objective

The primary objective is to edit the template <http://pixner.net/sbidu/main/index.html> for the purpose of car sales in the Irish market. The user will be able to place an offer on a car or use the Buy Now function. Admin will be able to upload the car images, edit descriptions, set reserve prices, see highest bidders.

## Frontend Features

About Us (Home page)

Stock

- Is it possible for only certain details to show before the customer has logged in?

FAQ

My Account

## User Sign up

Sign up - If possible admin will need to approve user sign up before they can login.

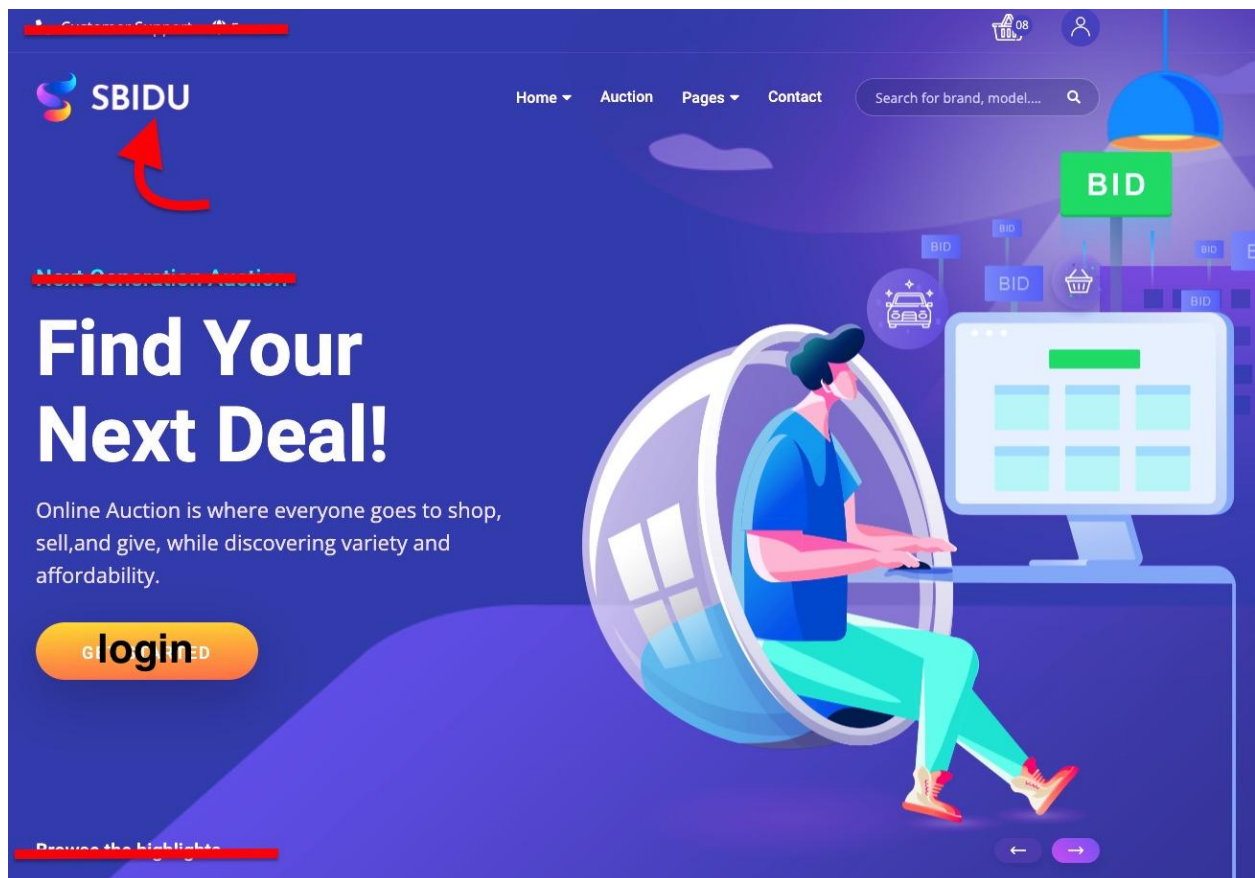

## User Signed in

Once the template is on the test server I will have a look and see how we can set up the user side.

## Admin Panel

I'll have a look through when on test server

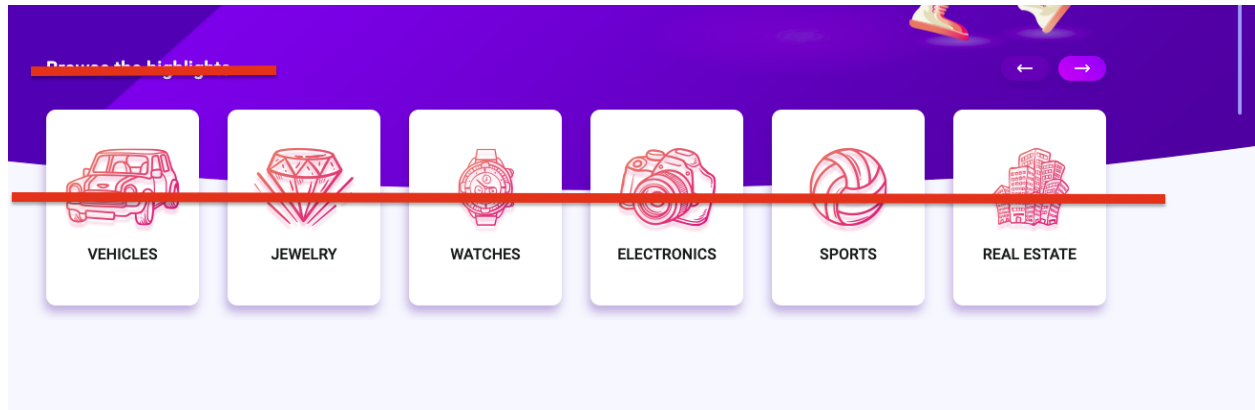

## Homepage / About Us

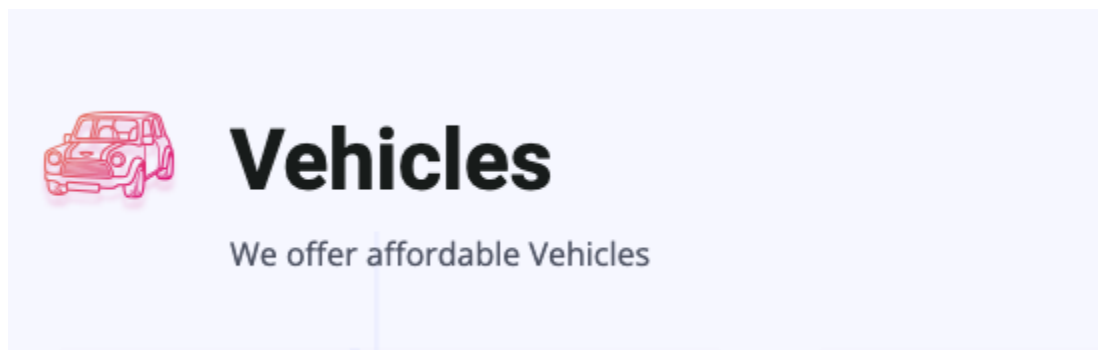

Pages for header: **About Us | Stock | FAQ | My Account (Sign In / Sign Up under if possible)**
